

Clarion School

Extra-Curricular Activities

12th September 2022 – 4th December 2022

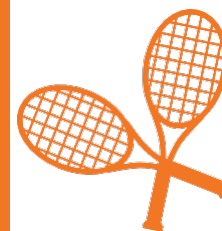

Introduction: Extra-Curricular Activities

Welcome to Clarion School's Extra-Curricular Activities programme. This programme is separate from the school curriculum and allows students the opportunity to engage in additional activities, whether this is for enjoyment, to enhance their skill set or to work towards a certified qualification. We have formed this partnership to deliver a programme which is enriching for our students whilst also offering a convenient, safe and secure location.

All activity provider's bring to Clarion School qualified coaches to share their knowledge and expertise within each discipline.

For registrations and payments, please contact the provider directly.

Swimming

At Swimming Warriors, we don't just teach children how to swim. We teach survival skills, building confidence among children and their families. We promote love and respect for the water and foster abilities that can translate to lifelong enjoyment.

Swimming Warriors uses proven methodologies that empower people to save their own lives. We have worked continuously to improve and fine-tune our methods, and we continue to develop our skills to remain up to date with new approaches and styles of teaching.

Football

Stryx operates Barça Academy Dubai exclusively since 2008. Our Technical Director is employed directly by FC Barcelona to manage and supervise the training programme. All our coaches are certified by FC Barcelona and deliver each session according to the technical formation and mechanism from FCB. FC Barcelona experts designed a specific programme for ECAs. It is an introductory version of the programme offered in the full – time academy. Depending on the age group, the players will train once or twice a week. Our players in the ECAs teams will also play competitions and tournaments between each other to ensure the players remain motivated and allow them to have a taste of the competitive environment.

Basketball

Stryx Sports is proud to have signed an exclusive partnership with NBA to operate NBA Basketball in schools throughout the UAE. NBA Basketball Schools are a network of basketball development programmes around the world open to international male and female players. NBA Basketball Schools are unique in their approach based on “the NBA-Way” of developing basketball talent which includes an explosive and athletic type of basketball experience along with the promotion of positive NBA values of integrity, teamwork, respect and innovation.

Our after school programme is adjusted for all ages and categories. This programme is based on socialising and interaction between the children, playing games, learning basketball techniques and developing psycho-physical abilities.

Engineering Workshops

Run by engineers from different fields, our team guide students through workshops that mimic real life situations, from conceptualisation to designing, building, and testing. Students review a concept, understand it, create a design, build a prototype, then test it. Ready-made kits are not provided, which encourages students to get creative with their designs, enhancing their understanding of engineering and design. There are multiple levels for students to progress through based on age and ability.

Students will learn:

- Different fields of engineering
- Problem solving
- Critical thinking skills
- Using math and physics in real life
- Use of different tools effectively
- Design skills
- Taking measurements correctly.

Padel

Learn and develop padel tennis skills on brand new padel tennis courts! Padel tennis is a new energizing racquet sport that has taken the UAE by storm. It combines the elements of tennis, squash, and racquetball and is usually played in doubles. The game is played on an enclosed court, a third of the size of a tennis court and made of metallic mesh and glass.

The simplicity of this sport makes it extremely attractive and means people of all ages and ability can enjoy it. Padel tennis not only has the fun factor but also helps kids physical development, coordination, psychomotor skills, reflexes, muscles, flexibility, resilience, mobility and more.
